

FRESH FRUIT AND VEGETABLE JUICE FOR SELF-SERVE JUICE BARS

Consumers love the idea of food that is 100% natural and in season. With the J 80 Buffet, the first juice extractor especially designed for self-serve situations, you can offer your guests an instant juice bar. In just 6 seconds, they can make the juice of their choice.

Adapted to every time of the day and situation, including hospitality, corporate restaurants, school canteens, events and receptions, the J 80 Buffet will enhance the image and offering of professionals, without requiring extra staff.

Fruit does not need to be cut up - it goes straight into the extra large 79 mm feed tube. Your customers will have no problem using the J 80 Buffet juice extractor because it is simple and intuitive. The sloping base means optimum juice evacuation. The large-capacity drip catcher tray will keep the counter-top clean. Cleaning is also super-simple - no tool is needed to dismount the parts, which are all dishwasher safe.

Bursting with vitamins, instant, fresh-squeezed juice, with its real-fruit taste, is one of the simple pleasures of life. Choosing the J 80 Buffet means increasing your selection of healthy, tasty foods and eliminating a source of waste.

For your breakfast buffets, refreshment breaks and corporate events, combine fruit and vegetables to produce novel results. And don't forget the final touch - mint, ginger, fennel or basil.
